BATMAN'S SHADOW - Display Only - Petit, T. 2007 -29" Sev. 7 I love the shadowy irregular patterned watermark in this flower which always reminds me of Batmans image beaming up against the night sky. The very large clear purple flowers have a heavy substance and open flat. At the center of the flower is a green throat. The wide petalled flowers are nicely ruffled, carrying a gold edge. Unique and different.

BEFORE - Display Only - Murphy 2011 -16 EE 6 Dormant diploid Unusual Form Cascade -This plant starts blooming before all daylilies except three in our garden, and is in full bloom when Stella starts. It is a pink and cream bitone cascade with green throat. Note, this is a large flower, not your more typical small extra early. It is nocturnal, opening at midnight and closing around 7pm the next day. Gorgeous blue green foliage, 3 branches, 18 buds. Pollen fertile. Out of PINK RAIN DANCE by unknown. Donated by Jim Murphy.

BELA ISABELLA - Display Only - Petit, T.2009 - 28" Sev. 5.5" These ivory flowers have a very dramatic chevron applique that extends far out onto the petal self. Outside the applique is a lavender violet patterned eye. The eye is surrounded by a dark purple mascara band that streaks inward. The pattern eye is mimicked on the sepals and continues as a double purple and violet picotee around the petal edges. The picotee edge is surrounded by a third bubbly gold wire edge. Striking and dramatic.

BELLERIEVE KISS-A-ME - Display Only - McClarren, T 2000 - 26" DIP Dor Mid 6" - Pink cream with rose eye and ruffled edge. Donated by Roma Radford.

CAPTIVA ISLAND - Display Only - Petit - SPRING 2009 - 24" Mid TETSev. 6 -Like the beautiful golden sunsets of Captiva Island, this flower is a bright beacon in the garden. The flower color is a glowing coral gold, with hints of pink and orange. The petal edges are very ruffled and crimped with a sparkling gold filagree. The gold edges continue around the petaloids as well. The gold, glittering edges all over the flower, combined with the very bright flower color, produces a glittering image of a molten sunset.

COLORFUL ETCHINGS - Display Only - Carpenter, J.2009 23 Mid EV 5RE The heritage of this cultivar is easily identified by the patterned eye with its etchings on both petals and sepals. TEXAS KALEIDOSCOPE is very powerful for passing that trait to its seedlings. COLORFUL ETCHINGS has a buff yellow-crim base color with beautifully etched eyes that appear on both the petals and sepals. The eye color is a blend of both lavender and wine color with a deeper wine color etching around petals and sepals. The deeper etched edge of the eye on the petals is accented with deeper fine lines of wine color that radiate downward into the beautiful green throat. COLORFUL ETCHINGS has a deeper wine edging with some additional lavender edging with it that extends about half way out on the petals. Repeating scapes have two-way branching with fifteen buds. Pollen fertile and pod difficult.

CORONATION DREAM - Display Only - Petit2009 -27" Mid Sev. 6.5 - 7" DOUBLE -Coronation Dream is by far an extremely sophisticated and commanding DOUBLE flower. The blooms are a soft baby ribbon pink, with both the petals and sepals surrounded by a pronounced gold edge. The flowers are extremely large, especially for a double flower. Both consistently and fully double, and are on tall, very sturdy scapes, a very powerful display of massive pom-pom blooms.

COSENZA - Display Only - Stamile 2008 -28" TETEMidEv. 6 RE -a beautifully formed bright rose pink with a large watermark and gold edge. Bright clear color on tall well branched scapes, color that is so bright and so clear that it radiates across the garden. Fertile both ways and a great parent for both white edges and gold edges.

COSMIC KALIEDOSCOPE - Display Only - Carpenter J.2008 -27 DIP Mid 6.5-Ev RE- flat-faced, lavender self with a wonderful stenciled eye above green throat, but there's much more to it than that simple little description. Take a look at the pictures. The flower is consistently good, and very fertile both ways.

DANCING RAINBOW - Display Only - Smith. F2006 - 28" TET SEv 5.5"DANCING RAINBOW is a beautiful combination of mauve and pink with a delightful bluish-patterned eye and matching edge. Fertile both ways.

DESERT ICICLE - Display Only - Roberts, N. 1995 - 38" EM SEv DIP8" RE - Greenish pink diamond dusted UF; crispate/spatulate.

DOWAGER EMPRESS - Display Only - Kirchhoff 2004 - 28" Mid Tet EV 5.5" RE - Blend of carrot, peach, rose rouge, with yellow to green throat. DOUBLE.

EVIL GNOME - Display Only - Murphy 2011 - 45 DIP Dor Mid6" - Very eye-catching and different! Cream to light tan in the morning, with a light purple jagged eye pattern. Tiny purple edge on the petals, chartreuse throat, and sunfast to 100F. On hot days it turns cream. 3 branches plus terminal, and about 27 buds. Vigorous, fertile. Out of GREY WITCH by a Jack Carpenter patterned seedling. Excellent parent for unusual patterned kids.

FACEPAINT - Display Only - Stamile, P 2006 -25 ERe. SEv 5.5"Orchid cream with a black violet eye and edge. Prolific bloomer and increaser.

FAME - Display Only - Smith, F. 2006 - 26" EM Dor TET 6" RE- Dark carmine rose flower with large chartreuse eye and edge.

FANCY FACE - Display Only - Carpenter 1994 - 22" DIP Ev EMid 5.5" - Cream gold with dark mahogany eyezone above green throat.

FEEL THE MAGIC - Display Only - Shooter 2005 - DIP SEv EMid DBL 5" - bronze blush above olive green to yellow throat.

FOCUS - Display Only - Murphy, 2010 - 39MLa7dormant diploid ext.fr. 3 branches, 23 buds. - Black purple with a black band, chartreuse throat, and ruffled edges; diamond dusted. Unusually sunfast for a dark color and a sea of blooms in the late season. Fertile. (Dont Know Jack x Chief Black Hand) The only cultivar with this parentage, and an excellent parent. Hard Dormant.

FRINGED SANGRIA - Display Only - Petit, T.2009 -27" Mid Sev. 7" These flowers are warm coral pink doubles with orange and rose highlights. At the center of the flower is a darker eye, which is present on both the petals and petaloids. The darker eye also continues along the petals and petaloids as a dark picotee. Surrounding the picotee edge is a second gold edge, which is typically bubbly, with hooks and knobs. The petals and petaloids are also very ruffled and crimped. The flowers appear atop strong, nicely branched scapes. The overall effect is very showy.

GET JIGGY - Display Only - Stamile, P.2009 -37" TETEMDor5.75 RE -WOW, What a flower!! Basically pink with a violet rose eye and double edges of both violet and rose. It is the eye, though, with its myriad breaks in color forming designer patterns of intriguing complexity. The eye of GET JIGGY is never the same. While the eye can be occasionally solid it is generally broken into layers. I have seen as many as 9 bands of alternating color (the image shows 7 bands). The lighter bands occasionally take on metallic characteristics. Unlike most patterned eyes the complexity of the eye seems to be independent of the temperature, with seedlings showing the breaking eye. Fertile both ways.

GODDESS DIVINE - Display Only - Petit, T.2009 -25" Mid Sev. 6" -delicate clear medium lavender pink. The petals are ruffled and surrounded by a crimped gold edge. The ruffled gold edges also decorate and highlight the petaloids, which makes the flower glow. The flowers of Goddess Divine provide a soft, peaceful spot in the garden. Reminiscent of a prom dress, these lovely pink flowers sparkle in the sunlight.

GOODBYE GENERAL CUSTER - Display Only - Roberts, N. 2003 - 44" DIP Mid SEv 8" RE UFO - Raspberry with red eye above green throat.

HAGRID - Display Only - Petit 2008 -Sev. 7-8 fl. 30 sc. M 25-30 buds. These monster-size flowers make other gold edged lavenders look like miniatures. The color varies between a dark lavender and light purple, accented by a deep green throat surrounded by a lighter watermark. The gold edge is deeply ruffled, and the flowers are presented on tall, well branched scapes. A great garden show-piece and an important breeder for size in the purple to lavender lines.

HEAT LIGHTNING - Display Only - Reed, M. 1994 - 40" DIP Mid Dor 6" RE - Deep dark purple with velvety black pencil mark above yellow to green throat.

JASON SALTER - Display Only - Salter, EH 1987 - 18" DIP EMid Ev 3" - Yellow with washed lavender purple eyezone and green throat.

JEALOUS DANCER - Display Only - Carpenter 2007 - 30" DIP Dor Early 5" RE - Peach with mahogany eye above green throat.

KAREN MUIR - Display Only - Smith, F.2006 - 28" TETSEv 5.5"
KAREN MUIR is a brilliant pinkish lavender flower with a very dark red-purple eye that radiates outward over the petals. The matching red-purple edge defines this perfectly-formed flat flower. Fertile both ways.

LANDON LEE - Display Only - Petit, T.2008 -30" Mid Sev. 6- A most striking patterned flower. The iridescent applique throat forms a shocking contrast to the dark, bold purple patterned eye. The petal edges lift in the throat area, displaying the dramatically mimicked applique and purple pattern on the sepals. Adding to the overall complexity of the flower is a matching dark purple picotee edge surrounded by a ruffled gold edge, typically with gold hooks and horns.

LAST SONG - Display Only - Petit,T.2009 -33" Mid SEv 6" - both captivating and serene at the same time. The petal self is a pale cream lavender, with a deep green throat. The flower has a striking triangular patterned eye, which is mimicked on the sepals. The eye is a violet lavender that is made up of two distinct bands: an inner and outer darker lavender mascara band. Between the bands is a lighter lavender violet eye, which contains inward streaking. The flowers are covered in a heavy diamond dusting, sparkling in the sunlight. The overall effect is quite amazing.

LAVA FLOW - Display Only - Smith 2006 - 32" TET EM SEv 5.5" - Intense brilliant orange with small red eye and edge.

ORCHID GILDED RUFFLES - Display Only - Carpenter, J. 2007 - 18"
M Dor TET 5.5" RE - Orchid blend with orchid and yellow edge.

PUNXSUTAWNEY PHIL - Display Only - Trimmer 2003 - 34" TET
EMid Ev 7.75" - Yellow with wine plum eye.

PURPLE EYED FANTASY - Display Only - Carpenter 1994 - 22" EM DIP Ev
5.5" - Cream gold with dark mahogany eyezone above green throat.

RED FANG - Display Only - Stamile 2001 - 28" TET EMid Ev 6" - Red self
with gold edge and teeth above green throat.

REFLEX - Display Only - Murphy 2011 -30 M 6 SEV diploid Unusual
Form Cascade -What a surprise from this one - it opens at midnight with
dark red tepals and huge dark green throat, and as the day progresses, it
reflexes or curls back until mainly the throat shows. The tepals curl and
re-curl. Cream edge, yellow midrib.Sunfast at 100F, Opens well at 50F.
Fertile, out of (YABBA DABBA DOO X DEVILS ADVOCATE) x
NATHAN SOMMERSWith this parentage, it might not be hardy in zones 4
and under, but completely hardy here with no winter damage.

REGAL BRAID - Display Only - Stamile 1994 - TET 12" Dor Mid 6" RE - Cream lavender with braided purple edge and purple eyezone above green throat.

REVOLUTION - Display Only - Reed, 2011 - 50+MLa8dormant, diploid, Unusual Form -Exotic Ruby red, with a darker red eye and a large yellow-to-green throat, this bloom is a huge cascade Unusual Form. It can easily reach 60, with 2-3 way branching and a bud count of about 16. This one stands up to thunderstorms and impulse sprinklers, but not recommended for high wind areas. Its tall, huge form would tempt the winds! It is a variable form (would measure larger but it recurves and cascades), ruffled and curling. Holds up to sun and 100 degree temps fine. Parentage: (ASD seedling x Kirsten Madeline Burkey).

RUSSIAN TEMPLE - Display Only - Petit, T. 2007 - 26" TET Mid Sev. 5.5- The self color on these striking flowers is a tangerine to lemon orange with a unique patterned eye of bright orange red, green throat. The circular eye moves out along the midribs to form points that resemble the peaks of a Russian temple. The eye is surrounded by a darker red mascara band highlighting its unique shape. The pattern eye continues around the beautifully ruffled petal edges as a double picotee surrounded by a third gold edge.

SANFORD ROSE CROWN - Display Only - Kirchoff 2002 - 22" TET Mid Ev 6" RE DBL - Coral rose DOUBLE with apricot to green throat and deep ruffles on petals.

SASKATOON - Display Only - Reed, 09 - 36" M 6" dormant, diploid. Ext. - Rich orchid purple, with great ruffles, this daylily has a big splash of a feathered darker purple eye, and some white in the throat. It has good branching (2 to 3-way) and bud count of 15-20. It blooms over a long season and is somewhat variable in form, hence was not registered as an unusual form, unlike its sibling FLIGHT OF ORCHIDS. It is sometimes a pinched crispate, other times a relaxed exotic form, or close to a cascade. The color carries across the garden. It is easily fertile both ways. One parent was an unusual form Jack Carpenter seedling.

SCREAMCICLE - Display Only - Cochenour 2003 - 35" TET EMid Dor 8" RE UF - Orange with red orange eye above orange throat.

SHENANDOAH DUSK - Display Only - Reed, 2011 - 45EM7.5dormant, diploid, Unusual Form -This light purple cascade with a very green throat began in early June, and is finishing at the end of July (a bud builder!). A cool color, with diamond dusting, it recurves and cascades. 2-way branching with a bud count of about 20.

SITTING QUEEN - Display Only - Petit, T.2009 -30" TET Mid SEv. 5.5 - 6" complex patterned and applique eye, with both a mascara edge and inward streaking. For even more pazzazz, the patterned eye continues around the petal edges as a multi-edged picotee, surrounded by a third wire gold edge. All of this patterning is overlaid on a lavender to orchid peach self with a deep green throat. The final result is a mesmerizing flower that glows in the garden.

SMALL WORLD BASIL HONAKER - Display Only - Miller, M. 2007 Cultivar info and photos can be viewed at Small World Gardens. Tet('Ferengi Gold' X 'Tar and Feather') Re, EM, Ev, 28", 6", 4 way branching carrying 25 buds. Named for my Great Uncle and a wonderful man. Bold bright yellow flower with green cast to it. Should be a great parent for that green that everyone is looking for. Great branching and bud count. Fertile both ways.

SMALL WORLD BEACH MUSIC - Display Only - (Miller, M., 06) Tet., EM., Dor., Re., 29 in. sc.; 6 in. fl.; 4 way branching carrying 25 buds. Peach pink cream blend with gold edge above green throat. Small World Beach Music has been giving us some very nice white and pink seedlings with heavy ruffled gold edges. Fertile both ways.

SMALL WORLD BO PEEP - Display Only -(Miller, M., '08) Tet., sw-21-t-04 (Elegant Candy x Strawberry Lace) Re., E, Ev., 32 in., 5 in., 4 way branching carrying 25 buds. As the picture shows, this is a very pretty bloom and one of my favorites. Easy fertile both ways, we will see the first seedlings from it next year. Great show scape! VALUE = \$40.00

SMALL WORLD CHUCK - Display Only - (Miller, M., '06) Tet., M-18-T-02 ('Small World Codi' X 'Creative Edge') M., Dor., Re., 25 in., sc.; 4 in., fl; 4 way branching carrying 18 buds. This is the first of my introductions coming from SMALL WORLD CODI. A favorite to garden visitors, 'Small World Chuck' has a cheery-raspberry eye and edge. Fertile both ways, excellent breeder. VALUE = \$30.00

SMALL WORLD CRAZY IN LOVE - Display Only - (Miller, M., '11) Dip., sw-sp-30-d-09 (Magic of oz X Small world twister) Dor., E., Re., 40, 9, 4-way branching, 20 BC. Hot rose pink with green throat. This great grower with wonderful plant habit is definitely a WOW plant in the garden, especially when you see it for the first time. There's plenty of movement going on and it is a good candidate for conversion for breeding Tets. VALUE = \$150.00

SMALL WORLD CROP CIRCLES - Display Only - (Miller, M., '10) Dip., sw-15-d-07 (Circle of Secrets X George Jets On) Dor., E., Re., 26, 4.1/8, 4-way branching, 18 BC. Cream with a hint of pink defines the base color of this cultivar; however, it has a beautiful eye zone consisting of 5 bands of colors from lavender, blue, lighter lavender, grey, yellow leading to a bright green throat. Jamie Gossard has expressed interest in using this cultivar in his breeding program. Great for use in breeding programs for patterns. A great grower and all around nice garden plant. Small World Gardens will be actively breeding to produce more patterned daylilies. Limited. Easy fertile both ways. VALUE = \$100.00

SMALL WORLD DANCING ANGELS - Display Only -(Miller, M., '10) Tet., sw-sp-7-t-09 (SW-SP-39-T-06 X Stick Figure) Ev., E., Re., 40, 9.5, 5-way branching, 30 BC. This is a beautiful lavender pink above a green throat. The cultivar is a well branched high bud count spider coming from a northern garden. Great effort went into this plant which has produced a good grower with extra large blooms. The picture is a two year old clump. When lined out the fans produce good BC and branching immediately. We anticipate that the BC and branching will increase as the clump matures.

Easy fertile both ways. VALUE = \$125.00

SMALL WORLD GRASSHOPPER - Display Only - Miller, M. 2007
Cultivar info and photos can be viewed at Small World Gardens.
Dip('Wilson Spider' X 'Green Widow') Re., E, Dor., 45", 6 1/4", UF, 4 way
branching 28 buds. 'Small World Grasshopper' is an awesome unusual form
with its vibrant green throat and nice movement. It has great plant habits and
is a very showy garden performer. Both pod and pollen fertile.

SMALL WORLD GUM DROP - Display Only - (Miller, M., 09) Tet., sw
-81-t-04 (Startle X Victorian Lace) Sev., Ee., Re., 36, 5.75, 4-way
branching, 20 BC. Pink with darker halo. Clean color. And has blunt sepals.
This one has been a favorite of all garden visitors who come to the garden. It
is also a great breeder for extra large blooms. Easy fertile both ways.
VALUE = \$100.00

SMALL WORLD LITTLE JOY - Display Only - (Miller, M., 11) Dip., sw-sp-19-d-09 (Dixie Rooster X
Wind Star) Dor., E., Re., 44, 5, 6-way branching, 40 BC. Wine with a bright green throat, this is one more of
our smaller spidery intros. Great all around plant with high bud count and excellent branching. We are
anxious to see what the next generation looks like. Should do well in shows. Fertile both ways. VALUE =
\$100.00

SMALL WORLD RED HOT - Display Only - (Miller, M., 09) Tet.,
sw-50-t-05 (Roses in Snow x SMALL WORLD RUBY RED) Re., Em.,
Sev., 34 in., 5 in., 4-way branching carrying 20 buds. Its hard to find good
reds. We got one here. This red has it all. Great form, color, plant habit,
Scape, and a nice green throat. Easy fertile both ways. VALUE = \$125.00

SMALL WORLD ROCKEN ROBIN - Display Only - (Miller, M., 10)
Tet., sw-6-t-06 (J.T. Davis X J.T. Davis x Small World Edwin Keith Smith)
Dor., Em., Re., 34, 6.5, 4-way branching, 25 BC. Blue-pink with gold edge
and green throat. Great-looking plant which produces extra large fans. Also
has a real showstopper of a bloom. A must have. Easy fertile both ways.
VALUE = \$125.00

SMALL WORLD SHOOTING STAR - Display Only - (Miller, M., 09) Tet., sw-89-t-06 (Rock Solid x l-20-t-02) Re., Em., Dor., 38 in., 5.5 in 4-way branching carrying 30 buds. This is one great looking daylily. Has wonderful color. Great scape. Edge gets way wider than the picture shows. Fertile both ways. Great breeder for some really dark eyes. VALUE = \$100.00

SMALL WORLD TEDDY BEAR - Display Only - Cultivar info and photos can be viewed at Small World Gardens. (Miller M. 06) Tet., M., Ev., Re., 30 in. sc.; 5 in. fl.; 4 way branching carrying 25 buds. Small World Teddy Bear has a striking bold plum eye and double edge. Needs mulching in zones 6 or lower. Can be tender if planted in the fall, but will always come back. Keeps making scapes all year long here in our Virginia garden. Fertile both ways and an awesome breeder.

SMALL WORLD TRAI HAMILTON - Display Only - (Miller M. 06) Tet., M, Ev, Re. 6", 26" scapes, 4 way branching, 28 buds. This 6 inch ruffled gold edged bloom is an awesome breeder for pinks and whites. Small World Trai bloomed three times here in my Virginia garden with frost killing the 4th set of scapes. A real show stopper in the garden. Fertile both ways!

SMALL WORLD TROI WAYNE - Display Only - Miller, M. 2007 - 28" TET Mid Ev 5 1/2" RE - Light yellow blooms with thick substance have a wide gold edge that shows some green on cooler mornings. Five way branching shows each bloom to perfection. Fertile both ways, pollen is easy, pods more difficult.

SMALL WORLD VALENTINE - Display Only - (Miller M. 06) Tet., M., Ev., Re., 30 in. sc., 5 in. fl.; 5 way branching carrying 35 buds. Very hardy; evergreen that stays green all winter long in our Virginia garden. Fertile both ways, is a great breeder for sunfast red seedlings with vibrant green throats.

SMALL WORLD ZACHARI - Display Only - 'SMALL WORLD ZACHARI' (Miller, M. '01) TET, Sev., Re., 30 in. sc.; 5.5 in. fl.; 4 way branching carrying 30 buds. Pod and pollen fertile. A wide petaled, ruffled, velvety apple red flower with a green center. This plant makes large fans. A great garden plant that makes a very showy clump.

SMOKE SCREAM - Display Only - Gossardd 2004 - 42" DIP Dor Mid UF 6.5" - Purple blend with dark purple eye above green white throat.

SOCKEYE SUNRISE - Display Only - Kendig 2003 - 38" TET EM Dor 6" - Salmon with dark pink eye and thread gold edge.

SUPER FANCY FACE - Display Only - Carpenter, J.2009- 27" Mid DIP EV 5" RE FRA - This cultivar and TEXAS KALEIDOSCOPE have produced some of the best of the kaleidoscopic eyed seedlings. five-way branching with up to 39 buds. Scapes are strong and have flowers that have a rather distinctive look to them. Please note the etching patterns on the eye as it appears on the sepals. This trait is easily passed to its seedlings. SUPER FANCY FACE has been foundational in working with the kaleidoscopic eyes and it is fertile both ways.

TUTU TRUFFLE - Display Only - Kirchhoff 2004 - 30" TET Mid Ev RE DBL 5" - Blend of cantaloupe, coral, apricot, tangerine, peach colors - DOUBLE.

WARRIOR VICTORIOUS - Display Only - Carpenter, J.2007 - 26" TET EMid SEv 5.5" RE -The base color of the flower is a deep or royal magenta present on both sepals and petals. To add special accent and detail there is a wide yellow band edge on the sepals along with the same color yellow appearing on the sepals back as they go under the petals. WARRIOR VICTORIOUS continues its impact with wide, bold, lavender-blue watermarks on the petals. The petals have a whitish-gold edging on them. Branching is 3-way with 15 buds and scapes repeat. Fertile both ways.

WATCHYL CYBER SPIDER - Display Only - Kreger 1995 - 30" Mid Dor TET 12" SPIDER - Pale yellow with red eyezone and green throat. Picture displayed is of first bloom a month after being transplanted. Red eyezone developed into much stronger eye as summer progressed. Donated by Angie Bowald.

WATER DROPS - Display Only - Stamile, P.2009 -29 TET EEEv. 5 RE
-has an eye that normally looks like stained glass. The eye itself varies considerably but always involved colors of blue, charcoal, fuchsia and lavender. The image shows a typical bloom but the eye can vary anything from bands of color to solid. The water drops can vary from light blue lavender to white. Occasionally the water drops also become a metallic diamond dusted gray. WATER DROPS is one of the most eagerly awaited daylilies since it was pictured in The Journal and Daylily Encyclopedia. An amazing daylily that passes on stained glass eyes. Fertile both ways.

WITCHES BREW - Display Only - Courturier 1990 - 36" Dip Dor Mid 7" Spider - Brick red spider with darker red eyezone and gold throat.

WONDER WORKER - Display Only - Carpenter, J.2007 - 24" DIP EMid Ev 6.5" RE -Flowers are round and very flat-faced with gorgeous pie crust type of ruffling. The substance of the flowers is unusually heavy. The beautiful cream color has a pink blushing in it, with scapes that are strong and sturdy with 4-way branching and 30 buds. Fertile both ways.

YELLOW MONKEY - Display Only - Gossard 2006 - 37" Mid Dip Spider 8.5" RE - Bright yellow spider, huge bud count, great branching.

ZOE ALLEGRA - Display Only - Petit, T.2009 -30" TET EMid Sev. 5.5"one of the most mysterious flowers that I have ever grown. The lavender blooms have a pattern eye that contains many colors, from violet to charcoal, mahogany, white, and green. The pattern itself changes daily. It can appear as clear distinct bands, as pictured, creating the effect of a kaleidoscope, or a flower within a flower. On other days, it can appear quite exotic, with many, many ripples of blue violet, giving it the garden name of pebble in a pond. The petals lift in the center of the flower revealing the pattern mimicked on the sepals. To add ornate to exotic, the flowers also have a violet picotee, surrounded by a second, knobby wire gold edge. A sinfully fertile, awesome parent! Named for a delightful young lady in St. Catherines, Ontario.
