BENZIGER SEEDLING "FRANK" - Display Only - In the summer of 2006, I visited Fred Benziger's garden after all my plants had stopped blooming. I bought three of his diploid seedlings that were just starting to bloom. They have grown like weeds and bloom very late for me. Since there were three seedlings, I started calling them Gold, Frankincense, and Myrrh just to help me keep them straight. I hope to get pictures of them this spring.

BENZIGER SEEDLING "GOLD" - Display Only - In the summer of 2006, I visited Fred Benziger's garden after all my plants had stopped blooming. I bought three of his diploid seedlings that were just starting to bloom. They have grown like weeds and bloom very late for me. Since there were three seedlings, I started calling them Gold, Frankincense, and Myrrh just to help me keep them straight. I hope to get pictures of them this spring. This particular seedling was one that Fred had marked to work with in the future, but he agreed to let me have it.
